PROFILE

A passionate and curious Full Stack JavaScript & Mobile Developer with strong technical and creative skills. Specialized in building responsive, user-friendly, and modern web/mobile applications using Next.js, React, TypeScript, and more. Always striving for growth, clean code, and user-centric experiences.

EXPERIENCE

Front-End Developer Intern

DEFENDR GG | Feb 2025 – Present

- Developing UI components using Next.js (Navbar, Buttons, Search Bar, etc.)
- Building pages like Create Organization, Create Tournaments, Home (before/after login)
- Contributing to a user-friendly design system across the platform

Front-End Developer Intern

Lezart Digital Team – Remote | Feb 2024 – Apr 2024

- Worked on designing and developing pages using React.js and Vite
- Converted Figma mockups into responsive websites
- Collaborated via Slack for streamlined team communication

PROJECTS

BarchaTalk – Social Media Platform (In Progress)
- Developingg both FrontEnd & BackEnd functionality
- Focused on dynamic UI & User experience

Self-Portfolio Website
- Built with React.js, Tailwind CSS & Framer Motion
- Responsive, animated, and optimized for performance

Codini Platform
- Developed backend logic: routers, database table relations, and controllers
- Built core frontend components (Home, Landing, Navbar, Footer, AboutUs, Teacher Dashboard) using Next.js 14 & TypeScript
- Ensured a cohesive and dynamic UI/UX using Tailwind CSS and Framer Motion

Booky - Online Book (Under Work)
- Backend tasks involved developing routers, establishing database table relations, and implementing controllers.
- Frontend tasks including all components
